KUALA NERUS: Identical twins Anis Hafida Zulkhar and her sister Anis Hafiza, 23, were very excited to be able to share the same stage during their convocation after graduating in the same field at Universiti Sultan Zainal Abidin (UniSZA).

Anis Hafida and Anis Hafiza, who hail from Meru, Perak, received their scrolls after completing their Bachelor's Degree in Islamic Studies to fulfil their late father's wish.

Anis Hafida, who is the third of five siblings, said that she and Anis Hafiza have never been apart since they were born, where they have studied together at the same primary and secondary schools as well as institution of higher learning.

The twins also share the same ambition – to be educators one day which is in line with their parents' wish.

"Since young, we have always been together. We studied at the same school, we took the same diploma course, and continued until degree level.

"Just can't imagine us being far apart for either work or studies, because she (Anis Hafiza) is also my best friend," said Anis Hafida when met at the 15th UniSZA Idul Ilimi Convocation ceremony here today (November 7).

Meanwhile, Anis Hafida said they are both working as marketing assistants at a supermarket in Meru, Klang before applying to enrol for the Post-Graduate Teaching Programme (KPLI).

Anis Hafida and Anis Hafiza were among the 1,116 graduates who received their scrolls on the third day of the UniSZA convocation ceremony today. – Bernama
