KUALA LUMPUR: UMP SA Holdings Sdn Bhd's subsidiary, UMP SA Services Sdn Bhd, has bagged the four-star score for the CIDB award.

UMP SA Services, which offers integrated facility management (IFM) solutions that comply with Shariah principles, received the award from the Construction Industry Development Board (CIDB) Pahang, recently.

This is following its compliance with the seven criteria set by the CIDB throughout its operations as a facilities management provider.

The seven criteria are business potential, financial ability, technical ability, project management, revenue management, best practices, and management ability.

In 2022, UMP SA Services, which provides customised IFM solutions that are tailored to meet its clients' specific needs, received the same award from CIDB.

UMP SA Holdings group chief executive officer Syed Alwi Mohamed Sultan said the award recognises the company's exceptional contributions and outstanding performance within the construction and development sector.

"The award is a testament to the hard work and dedication of our teams at UMPSA Holdings and UMPSA Services. We continually strive to deliver top-notch service and quality control measures," he said.

UMPSA Services general manager Mohd Ikram Ramli said the four-star rating signifies a high level of proficiency and adherence to industry standards.

"CIDB provides an effective platform to promote UMPSA Services, and the award, indirectly gives UMPSA Services the best opportunity to effectively demonstrate the value of our services throughout the country," he added.
