KUALA LUMPUR: There must be a thorough review of the educational system at military-linked institutions to strengthen the response to bullying cases.

Higher Education Minister Datuk Seri Zambray Abd Kadir said this following recent concerns over incidents at Universiti Pertahanan Nasional Malaysia (UPNM).

He said a comprehensive approach was necessary to prevent and address bullying, particularly within unique environments such as UPNM, where both military and civilian administration oversee students.

"We must re-evaluate the entire ecosystem within these institutions to find the best ways to prevent such incidents.
